**AN ANNALYTICAL STUDY ON INDOOR THERMAL COMFORT LEVELS IN
HIGH-ALTITUDE URBAN HOUSING SCHEMES IN KANDY.
WITH SPECIAL REFFERANCE TO HANTHANA HOUSING SCHEME**

A DISSERTATION PRESENTED TO THE DEPARTMENT OF ARCHITECTURE,
UNIVERSITY OF MORATUWA, SRILANKA
FOR THE FINAL EXAMINATION IN M.Sc (ARCHITECTURE)

This study, with many complexities and difficulties completed due to the assistance, guidance and encouragements given by all the following persons, to whom I wish to extend my heart felt gratitude.

My sincere thanks to Dr. S. Manawadu, Head, Department of Architecture, for his valuable guidance and advice in the initial stage of the study.

My tutor, Dr. R. Emmanuel, senior lecturer, Department of Architecture, for guidance, comments, and criticisms, which encourage me to do this study.

My warm thanks are extended to Archt. Suren Wikramasinghe, Archt. Channa Horombuwa and Eng. Ravi Perera of Tanya and Suren Wikramasinghe architects, for providing me drawings of the Hanthana housing scheme and valuable information given me in completing this task towards success.

Archt. Jayantha Domingo, senior architect, National Housing Development Authority, for valuable comments and unreserved help given me for the completion of this task.

Librarian, National Housing Development Authority, allowing me to refer the NHDA library.

Mr. Chathura Masakorala, technician, Department of architecture, University of Moratuwa, for

providing me all the measuring instruments and valuable help given me in my research work at Hanthana.

My friend Dilum, her parents and her friends Upeka and Bhathiya for their valuable help given me in providing accommodation, arranging houses for the case studies, etc.

My friends, Nuwan, Dinoo, Thusara, Pana, Tharindu, Pula, Kumudu, Prasad and All my colleagues, for their valuable support in completing this task.

Finally I express my deepest gratitude to my mother, father and brother for their unlimited love, attraction and encouragement to make this success.

Introduction	01-07
Chapter 01	08
1. Background	08
1.1. Background study – Urbanization	08
1.1.1. Urbanization	08
1.1.2. Urbanization in Sri Lankan context	09
1.1.3. Housing, history in Sri Lanka	10
1.1.4. Appraisal of housing for Kandy due to urbanization	13
1.2. Definition of climate	13
1.2.1. Urban climate study in Sri Lanka	14
1.2.2. Urban heat island	16
1.3. Thermal Comfort:	18
1.4. Hanthana housing scheme - Historical and social background	19
1.5. Climate of Kandy and its thermal comfort	19
Chapter 02	22
2. Method	22
2.1. Introduction	22
2.2. Research analytical framework	22
2.3. Parameters of the study	23
2.4. Selection of cases	24
2.5. Assumptions made in selection of house types	25
2.6. Research data	26
2.6.1. Whirling hygrometer (Wet and dry bulb thermo meter)	26
2.6.2. Anemometer	27

2.7.	Method of measuring research data	27
2.7.1.	Indoor data reading	27
2.7.2.	Temperature humidity index (THI)	28
2.7.3.	Wind velocity	29
2.7.4.	Out door climatic study, for the overall scheme.	29
Chapter 03		31
3.	Research results research analysis	31
3.1.	The introduction	31
3.2.	The research results of indoor, comfort study.	32
3.2.1.	Case one	32
3.2.2.	Case two	33
3.2.3.	Case three	34
3.2.4.	Case four	35
3.2.5.	Case five	36
3.2.6.	Case six	37
3.2.7.	Case seven	38
3.2.8.	Case eight	39
3.3	Research analysis	40
3.3.1.	Comparisons	40
3.4.	The research results of outdoor thermal comfort study-street study	47
3.4.1.	Introduction	47
3.4.2.	Streets study results and analysis	47
