STEELNESS IN ARCHITECTURE;  
CONTEMPLATION ON THE SPIRIT OF MATERIAL IN ARCHITECTURAL EXPRESSION

A Dissertation submitted to University of Moratuwa  
As a Partial Fulfillment of the Requirements for the Degree of  
Master of Science in Architecture.

## ACKNOWLEDEMENTS

---

I must be grateful to the entire academic staff of the faculty of architecture not only for their helping hands for the dissertation but also for the valuable knowledge which they offered me during the six year course of study.

Especially Dr.Manawadu, and Dr. Dayarathna for helpful criticisms.

Archt Varuna De Silva, my tutor and Archt. Sudharshana wijegoonawardena for all the encouragement, inspiration and gentle guidance, given throughout the study without which this dissertation would not have been a reality.

I sincerely wish to thank Deepani for being with me whenever help is needed. Finally I acknowledge my colleagues especially Dekum for taking photographs, Susantha for all his support and my all friends, Muza, Thanuja, Shantha, Malinda, Nirosh, Kalan, Shanika, Roshini, Chali, Hiran, Peris, Erandi Nangi for their helping hands.

Finally, I am indebted to my parents for their love and support.

**CHAPTER ONE**  
**ARCHITECTURE AND ARCHITECTURAL EXPRESSION**

1.1	Architecture; the making of it.....	01
	1.1.1 Architecture as art.....	01
	1.1.2 Specialty as an Art.....	02
	1.1.2 Sensation .....	03
1.2	Architecture; perception of the artifact.....	04
	1.2.1 The dialogue between creator and perceiver (Nirmaththru/Rasika)....	04
	1.2.2 Expression of an artifact.....	05
1.3	Architectural Expression.....	06
	1.3.1 Initiation of the artifact.....	07
	• User	
	• Context	
	• Activity pattern	
	• Higher purpose	
	1.3.2 Realization of the artifact.....	08
	• Materials.	
	• Technology	
	• Locality	
1.4	Evolution of architectural expression .....	09
1.5	Contemporary interpretation for architectural expression.....	10
1.6	Inter-relationship between architectural expression and materials.....	10

**CHAPTER TWO**

**INDIVISIBLE NATURE OF ARCHITECTURAL EXPRESSION AND MATERIALS**

2.1	Architectural manifestation of materials.....	11
	2.1.1 Significance added to space.....	11
2.2	Concepts and methods of using materials .....	12
	2.2.1 Invention of materials.....	12
	2.2.2 Technology.....	13

2.2.3	Changing of the concept.....	13
2.3	Determinants of the nature of usage of materials in architectural expression.....	14
2.3.1	Material properties.....	15
2.3.2	Technology.....	15
2.3.3	Diversity of usage.....	15
2.4	Expressive qualities of material.....	16
2.4.1	Materialistic behavior.....	16
2.4.2	Structural behavior.....	16
2.4.3	Amalgamation of the structure and expression.....	16
2.5	Performing the spirit of Materials in the expression of architectural meaning.....	17
2.5.1	The term 'spirit' as applied to architecture.....	18
2.5.2	Spirit of a material.....	19
2.5.3	Materials of potentially receptive to architectural meaning .....	20

### CHAPTER THREE

#### SYNCHRONIZING OF SPIRIT OF THE MATERIAL AND EXPRESSION OF MEANING IN ARCHITECTURE; THE CASE OF STEEL

3.1	Steel; Spirit of the material .....	21
3.1.1	Qualities determining the spirit of the material.....	21
3.2	Deriving a hard discipline for the making of architecture.....	29
3.3	...that STEELNE is a state,.....	31
3.4	STEELNESS; identifying the point sources of the 'state'.....	33
3.4.1	Refined.....	34
3.4.2	Skeleton.....	35
3.4.3	Contrast.....	35
3.4.4	Robust.....	35
3.5	STEELNESS in architectural expression.....	36
3.5.1	Diversity of application.....	36
3.5.2	Exposure of STEELNESS.....	37

## CHAPTER FOUR

### SELECTED CASE STUDIES AS TO EXPLORE STEELNESS IN ARCHITECTURAL EXPRESSION

---

4.1	Rationale for selection.....	38
4.2	Basis of analysis and point references for the case studies.....	38
4.3	Case Studies.....	39
	• Case one	
	• Case Two	
	• Case Three	
	• Case Four	
	• Case Five	

**List of Illustrations**

1. Enigmatic experience of the spirit of place.....	01
(Temple of Hutshepsut)	
2. Artistic Devotion.....	01
(Chikatsu Asuka Historical museum by Tadao Ando)	
3. Facial Expressions as to perform multiple meaning.....	01
(Dancing posture of vajra)	
4. House..., the momentum of human evolution.....	06
5. Materials when dictates the spirit.....	19
(Pyramids of Cheops)	
6. Slenderness in structural form.....	23
7. Lightness enhance the function.....	23
8. Aesthetics out of mechanical delight.....	24
9. Being flexible ushers a wider range of expression.....	24
10. Complexity that creates ultimate unity.....	24
11. Pierced statement that an architectural work is emphasize.....	25
12. Softness id resulted as an inner resolution.....	25
13. Intimate spatial expression calls for humanity.....	25
14. grandness is further emphasized very contrasting quality of the Steel structure .....	25
15. Natural cognition of forms is banned.....	26
16. Adding a gesture of connectedness.....	26
17. Dominance over nature.....	26
18. Strength being the realizing of energy.....	26
19. Formation of a structure is direct appeal for monument.....	27
20. Activities of freely performed are encouraged.....	27
21. Mystique expressiveness that human is genetically bounded.....	28
22. Vertical expression resembles the spiritual dimension.....	28
23. Utilizing structural purity of steel.....	28
24. Steel in its expressive rustic quality.....	28
25. Expressive strength.....	29
26. Simply the best.....	29
27. Enhancing the relative importance of the eternal quality.....	29
28. That steelness is a state.....	31
29. Subjective expression of an inner accomplishment that is objective.....	34
30. unity as a consequence is multiplicity the tolerance of inner strength.....	34
31. Ying yang.....	35

32. Effortlessly timeless.....	35
33. Pierced into the historical core.....	39
34. Inspirations.. Cathedral of mechanically serviced.....	40
35/36. Mechanically cathedral being harshly detailed.....	41
37. A technological marvel or being lost.....	41
38. Steelness in urban conservation.....	42
39. Urban piazza form the air.....	42
40. Steelness is it s very expression.....	43
41. Centre Pompidou the art museum of the century.....	43
42. Steel detailing in light composition.....	43
43. Steel has being used to enhance the structural skeleton.....	44
44. Monolith as seen from the land.....	45
45. Exhibition space.....	45
46. Interior detailing a glimpse for the total experience.....	46
47. Initiating a sign for robust sense.....	46
48. At the threshold of steelness.....	47
49. Kandalama, the eternal conservation.....	48
50 Being a staggered viewing deck overlooking Kandalama lake.....	48
51. Naturally camouflaged subtlety a bold statement of steelness.....	
52. Exciting the rustic feature of the boulder.....	49
53. Three dimensional composition depicts the lyrics of minimum built sense.....	49
54. Steelness in its first detailing.....	50
55. Solitary robustness.....	50
