## DECLARATION OF THE CANDIDATE AND SUPERVISOR

"I declare that this is my own work and this thesis does not incorporate without acknowledgement any material previously submitted for a Degree or Diploma in any other University or institute of higher learning and to the best of my knowledge and belief it does not contain any material previously published or written by another person or me except where the acknowledgement is made in the text.

Also, I hereby grant to University of Moratuwa the non-exclusive right to reproduce and distribute my thesis, in whole or in part in print, electronic or other medium. I retain the right to use this content in whole or part in future works (such as articles or books)."

Dr. Amal Shehan Perera

Date:

Signature of the Supervisor

## ACKNOWLEDGMENT

First, I would like to thank Dr. Amal Shehan Perera my supervisor, for his intellectual guidance during the course of this research.

I sincerely have to thank here:

- Dr. Chandana Gamage, Head of the Department, Ms Vishaka Nanayakkara, Former Head of the Department, Dr. Chathura De Silva, Course Coordinator and all other Staff of the Department of Computer Science and Engineering for their mentoring during this research.
- Director General, Director of Technical Assistance and Staff Officers of the External Resources Department, Staff officers of the Treasury Secretariat, past foreign training participants who contributed to my research questionnaire, Donor Agencies and staff of the ICTA.

Finally, I wish to thank my husband Liyanage and my son Induwara for their understanding and guidance throughout this research.

## ABSTRACT

Knowledge creation can be defined as a dynamic human process of justifying personal belief and skill in a search for the “truth.” The knowledge skilled person in an organization is an asset which cannot be included in the balance sheet. One of the key requirements of the public sector is to provide knowledge-based goods and services for the general public towards the development process of Sri Lanka. It is believed that sufficient experience in the area of work and extensive training will contribute to achieving the said goal with the assistance of public sector employees. The skills of the public sector employees, who acquired training domestically and internationally, will be vital to bridge any gaps in achieving the development goals of Sri Lanka within the knowledge-based economical environment. Sharing the acquired knowledge, particularly training acquired in overseas countries, with all other public sector employees will make a value addition to the training that they had.

Studying the existing systems in the Sri Lankan Public sector giving special attention to the public value of having Knowledge Processing Systems based on the feedback on foreign training is one of the main objectives of this research. This work also proposes a Knowledge Processing System to facilitate key activities of knowledge sharing if they are not already available.

Based on a wide literature survey, a Framework for a Knowledge Processing System for feedback on foreign training for the public sector was identified as part of this research. In this framework, the main variables are Organization Cultures, Organizational Structure, Technology, Policies, Training, Knowledge Assets, Performance of Sharing Training Feedback. Research findings include observations about the public value knowledge sharing and key aspects that can be incorporated in order to effectively utilize a Knowledge Processing System for sharing feedback on foreign training for Sri Lankan public sector employees.

# TABLE OF CONTENTS

DECLARATION OF THE CANDIDATE AND SUPERVISOR.....	i
ACKNOWLEDGMENT.....	ii
ABSTRACT.....	iii
TABLE OF CONTENTS.....	iv
LIST OF FIGURES.....	vi
LIST OF TABLE.....	viii
LIST OF ABBREVIATIONS.....	ix
LIST OF APPEDICES.....	x
CHAPTER 01 INTRODUCTION.....	1
1.1 Background and Motivation.....	1
1.1.1 Foreign training opportunities for enhancing human resource development in the Sri Lankan public sector .....	2
1.1.2 Foreign training dissemination function of Department of External Resources.....	2
1.1.3 Foreign trainings knowledge sharing and way forward.....	4
1.2 Problem Statement.....	5
1.3 Research Objective.....	6
CHAPTER 02 LITERATURE REVIEW.....	8
2.1 Knowledge Processing and Knowledge Management System.....	8
2.2 Knowledge Assets.....	11
2.3 Trainings and Knowledge Sharing through Feedbacks.....	12
2.4 Existing Business Process of Foreign Training and Feedback.....	15
2.4.1 Training programmes.....	15
2.4.2 Present training feedback method.....	16
2.4.3 Existing policies for training feedback for Sri Lankan public sector.....	17
2.5 Identifying the Public Value of a KPS Available through Foreign Training Feedback.....	17
2.5.1 Feedback mechanisms for online KPS.....	17
2.5.2 Information of training feedback for online KPS.....	18
2.6 Business Process with Proposed Knowledge Management System.....	20
CHAPTER 03 RESEARCH METHODOLOGY.....	21

3.1	Methodology Adopted.....	21
3.2	Conceptual Framework for Knowledge Processing System.....	22
3.3	Variables.....	25
3.3.1	Dependent variables.....	25
3.3.2	Independent Variables.....	27
3.4	The Questionnaire.....	34
3.5	Design.....	34
3.6	Selection of Sample .....	35
3.7	Questionnaire Administration.....	36
CHAPTER 04 ANALYSIS OF RESULTS.....		37
4.1	Approach.....	37
4.2	Summary of the Sample.....	37
4.3	Measure of Reliability – Cronbach’s Alpha.....	39
4.4	Descriptive Statistics.....	39
4.5	Relational Statistics and Hypothesis Testing.....	39
4.5.1	Hypothesis testing.....	40
4.5.2	Summary of the test results.....	56
4.6	Summary of Hypothesis Testing.....	57
4.7	Sampling Error.....	65
CHAPTER 05 CONCLUSION AND RECOMMENDATIONS.....		66
5.1	Limitations.....	67
5.2	Managerial Implications.....	68
5.3	Future Research.....	72
REFERENCE LIST.....		73
APENDIX -01: Research Questionnaire.....		78
APENDIX -02: Descriptive Statistics.....		83
APENDIX -03: Hypothesis Test Results.....		87
