AUTOMATED PEDAGOGICAL EXPERT FOR EVALUATING WEB-BASED E-LEARNING CONTENT

Sirikkathhuge Choolangika Mihiri de Silva Sirisuriya

128009T

Thesis submitted in partial fulfillment of the requirements for the degree Master of
Philosophy

Department of Information Technology

University of Moratuwa
Sri Lanka

November 2018

DECLARATION

I declare that this is my own work and this thesis does not incorporate without acknowledgement any material previously submitted for a Degree or Diploma in any other University or institute of higher learning and to the best of my knowledge and belief it does not contain any material previously published or written by another person except where the acknowledgement is made in the text. Also, I hereby grant to University of Moratuwa the non-exclusive right to reproduce and distribute my thesis, in whole or in part in print, electronic or other medium. I retain the right to use this content in whole or part in future works (such as articles or books).

S.C.M.de S. Sirisuriya

Date

The above candidate has carried out research for the MPhil thesis under my supervision.

Name of the supervisor I: Dr. Lochandaka Ranathunga

Dr. L.Ranathunga

Date

Name of the supervisor II: Prof. S.P. Karunanayaka

Prof. S.P. Karunanayaka

Date

Name of the supervisor III: Associate Professor Dr. Nor Aniza Abdullah

Dr. Nor Aniza Abdullah

Date

ACKNOWLEDGMENTS

First of all I would like to thank my supervisor, Dr. Lochandaka Ranathunga for his kind cooperation, guidance, and supervision extended throughout this research project. Without his encouragement this research would not have been such a success. Also I would like to thank my co-supervisors Prof. Shironika Karunanayake from Open University of Sri Lanka and Associate Professor Dr. N.A. Abdullah from University of Malaya- Malaysia for guiding me to achieve success in this research.

I would like to thank to the Vice Chancellor of the University of Moratuwa, the Dean of the Faculty of Information Technology and the Head of the Department of Information Technology, University of Moratuwa for allowing me the opportunity to start my research work at the University of Moratuwa and facilitating me to complete it successfully.

I wish to extend my sincere gratitude to the Dean of the Faculty of Computing and the Head of the Department of Computer Science of the General Sir John Kotelawala Defence University for their great support and encouragement extended to me throughout this study.

Also I would like to thank all the staff members of Department of Information Technology, University of Moratuwa for giving me the fullest support throughout the research study.

Finally, my heart full gratitude goes to my husband Asoka and my two little boys Nimeth and Dineth, my mother and my mother in law who are with me the whole process of making my vision reality.

Abstract

e-Learning has been revolutionizing education system based on the concept of learning occurring at any time and any place. The advent of e-Learning has not only bridged the gap between distance and education but also in student learning and student performance by allowing for more personalized teaching. Behind any successful e-Learning program, it is a necessity to maintain careful design and attractive content that can keep the audience focused and interested. Hence, the importance of evaluating web-based e-Learning content is non-secondary in the e-Learning content development. The evaluation process usually consists of pedagogical evaluation and content evaluation, because e-Learning course material is a combination of the course's content, as well as the way it is delivered. This research study is mainly focused on automating the pedagogical evaluation component of web-based e-Learning content. In automating the pedagogical evaluation, identifying inconsistencies is the biggest challenge faced by pedagogical experts in the current manual reviewing process, because different institutions use different checklists to pedagogically evaluate their web-based e-Learning content. Developing a calibrated checklist that can be used in the pedagogical evaluation process is the solution to this matter. This calibrated checklist was devised based on studying existing checklists and then a questionnaire was created, and a survey conducted with pedagogical experts to identify the most important review factors which are considered in the pedagogical evaluation process. Additionally, a quantitative formula was devised to weigh the importance of each review factor along with their related SRFs. This study achieves the following objectives. First to build a calibrated checklist that indicates the most important factors for evaluating the pedagogical effectiveness of Web based e-Learning content. Secondly, to prepare a quantitative formulation for determining the pedagogical effectiveness of Web based e-Learning content. Both the checklist and the quantitative formulation can be instrumental towards the development of a theoretical framework for pedagogical compliance of e-Learning content. This framework can provide the foundation to design and develop a tool for assisting pedagogical experts in their evaluation process prior to making a decision whether a particular e-Learning content is well designed or not. Further, it will pave the path to elicit a quantitative approach for pedagogical evaluation. The benchmarked results of automated pedagogical expert results and the manual evaluation results with respect to the variation within one times standard deviation of mean values of manual evaluation have shown the validity of the framework. Further, this study has elicited a quantitative measure to align with manual evaluation to provide consistence evaluation framework.

TABLE OF CONTENTS

Declaration	i
Acknowledgement	ii
Abstract	iii
Table of Contents	iv
List of Figures	ix
List of Tables	xii
List of Abbreviations.....	xiv
CHAPTER 1	1
INTRODUCTION	1
1.1 What is e-Learning ?	1
1.2 Instructional Design in e-Learning.....	2
1.3 Pedagogy in e-Learning	3
1.4 Pedagogical Evaluation Process (PEP) of Web Based e-Learning Content .	3
1.5 Manual Pedagogical Evaluation Process of Web Based e-Learning Content	4
1.6 Challenges Faced in Pedagogical Evaluating Process	4
1.7 Benefits Gain from Automating Pedagogical Evaluating Process.....	5
1.8 Study Aim and Objectives.....	7
1.9 Organization of the thesis.....	8
1.10 Summary	8
CHAPTER 2	9
REVIEW OF LITERATURE.....	9
2.1. Existing Checklists Used in the Manual Pedagogical Evaluation Process ...	9
2.2. Gagne’s Nine Events of Instructions.....	13
2.3. Mayer’s Multimedia Design Principles.....	14
2.4. Existing Evaluating Process of Web based E-Learning.....	15
2.5. Summarization of the Existing Systems.....	19
2.6. Summary	21
CHAPTER 3	22
DESIGN OF THE AUTOMATED PEDAGOGICAL EXPERT	22
3.1. Conceptual Framework	22

3.2.	Design of the Theoretical Framework.....	24
3.2.1.	Design of the Calibrated Checklist.....	24
3.2.2	Develop the Quantitative Formula.....	25
3.3	Automate the Pedagogical Reviewing Factors.....	26
3.4	Evaluating Automated Pedagogical Reviewing Factors	27
3.4.1	Manual Pedagogical Evaluation Process	27
3.4.2	Flow of Automated Pedagogical Evaluation Process	28
3.5	Summary	29
Chapter 4	30
DESIGN OF CALIBRATED CHECKLIST	30
4.1.	Design of the Calibrated Checklists	30
	“Evaluation and grading criteria is clearly mentioned”	32
4.2.	Detail description about the checklist	33
4.2.1.	MRF 1: “Course Overview and Introduction”	33
4.2.2.	MRF 2: “Accessibility”	34
4.2.3.	MRF 3: “Structure of the course”	35
4.2.4.	MRF 4: “Learner Interface of the Course”	36
4.2.5.	MRF 5: “Language”	38
4.2.6	MRF 6: “Learning Resources”	39
4.2.7	MRF 7: “Interaction and Activities”.....	39
4.2.8	MRF 8: “Evaluation or Assessment”	41
4.2.9	MRF 9: “Learner Support”	42
4.2.10	MRF 10: “Navigational Structure”	42
4.2.10	MRF 11: “Overall Presentation Outlook”	43
4.3	Summary	44
CHAPTER 5	45
THE DESIGN OF THE THEORETICAL FRAMEWORK	45
5.1	Device of the Quantitative Formula	45
5.2	Calculation of Weightages (w_i) for Each MRF	48
5.3	Feedback Analysis of Review Factors	64
5.4	The Process of Selecting SRFs for Implementation.....	69
5.5	Summary	70

Chapter 6.....	72
Implementation	72
6.1 Extract data from web based e-Learning content.....	72
6.2 Implementing SRFs.....	74
6.2.1 SRF 1: “A variety of learning activities are used”	75
6.2.2 SRF 2: “Provide frequent, meaningful, and rapid feedback”	76
6.2.3 SRF 3: “Guidelines for group work/ activities are mentioned”.....	77
6.2.4 SRF 4: “Mode of communication with the instructor or with other students is provided”	78
6.2.5 SRF 5: “Guidelines for participating in online discussions are given” ...	79
6.2.6 SRF 6: “Evaluation and grading criteria is clearly mentioned”	79
6.2.7 SRF 7: “Guidelines for submitting assignments are given”	80
6.2.8 SRF 8: “For each exercise, step by step instructions are given”	80
6.2.9 SRF 9: “A number of assignments or exercises are provided”	81
6.2.10 SRF 10: “Availability of a brief description of the course including goals, learning objectives and learning outcomes”.....	82
6.2.11 SRF 11: “Mentioning of Prerequisites”	82
6.2.12 SRF 12: “Availability of a course map with due dates of assignments and other submission deadlines”	83
6.2.13 SRF 13: “Provision of learning resources in appropriate format to the online environment”	84
6.2.14 SRF 14: “Easy-to-understand Instructions”	86
6.2.15 SRF 15: “Accurate spellings and grammar”	87
6.2.16 SRF 16: “Pages load quickly”	87
6.2.17 SRF 17: “Enhancement of readability of text, images and diagrams”	88
6.2.18 SRF 18: “Organization of content according to topics and subtopics” ...	88
6.2.19 SRF 19: “Provision of /mentioning of objectives or learning outcomes at the beginning of each module”	89
