

Declaration

I certify that this dissertation does not incorporate, without acknowledgement, any material previously submitted for a degree or diploma in any University and to the best of my knowledge and belief, it does not contain any material previously published or written by another person or myself except where due reference is made in the text. I also hereby give consent for my dissertation, if accepted, to be made available for photocopying and for interlibrary loans, and for the title and summary to make available to outside organization.

Acknowledgments

I am highly grateful to my supervisor, Dr. Gamini Wijayarathna, Department of Industrial Management, University of Kelaniya, for his guiding, encouragements, assistance, given to me during development of my software solution.

I would like to extend my gratitude to Air Marshal W.D.R.M.J. Goonetilleke, the Commander, Sri Lanka Air Force, Air Vice Marshal Aruna Gunawardana, Director of Electronic & Telecommunication, Sri Lanka Air Force, especially group Captain T.G.A.J. Amarasena, Command Information Technology Officer, Sri Lanka Air Force, for permission granted to me continue this software solution at Sri Lanka Air Force.

I wish to thank other members of SLAF staff who offered their supports in many ways to complete my development project.

I would like to put across my sincere thanks to Prof. Karunarathna, Dr. Madurapperuma and other all members of staff of faculty of Information Technology, University of Moratuwa for their kind help and encouragements to complete this software project successfully.

Finally, I take this opportunity to dedicate my special gratitude to my loving parents and loving wife for their encouragements and fullest support in completing this task.

Table of Contents

Declaration.....	iii
Acknowledgments.....	iv
Abstract.....	v
Table of Contents.....	vi
List of Figures.....	x
List of Tables.....	xii
List of Abbreviations.....	xiii

CHAPTER 1..... 1

Introduction.....	1
1.1 Preamble.....	1
1.2 Introduction of Organization.....	1
1.3 Present Roles of SLAF.....	2
1.4 Existing System.....	2
1.5 Requirement of a New System.....	2
1.6 Motivation.....	2
1.7 Problem Statement.....	3
1.8 Solution.....	3
1.9 Aim and Objectives.....	4
1.10 System Requirements.....	4
1.11 Summary.....	4
1.12 Structure of the Dissertation.....	5

CHAPTER 2..... 6

Current Issues in Manual AMACS.....	6
2.1 Introduction.....	6
2.2 How the Existing System Works.....	6
2.3 Problem Domain.....	7
2.4 Functions of Existing System.....	7
2.5 Weaknesses of Existing Manual System.....	8
2.6 Approaches to Solve Similar Type Problems.....	9
2.6.1 Similar Type Products.....	9
2.6.2 AMACS Deviation from Generic Products.....	10
2.8 Summary.....	11

CHAPTER 3.....12

Technology Adoption for AMACS 12

- 3.1 Introduction 12
- 3.2 Possible Technologies for Personal Authentication 12
 - 3.2.1 Comparing of Deference Approaches 13
- 3.3 Software Engineering Adaptation 13
 - 3.3.1 Main Software Process Models 14
 - 3.3.2 System Analysis and Design Methodology 16
 - 3.3.3 Software Validation 17
 - 3.3.4 Software Evolution 18
- 3.4 UML –Software Modeling Using Unified Modeling Language 18
- 3.5 Development Environment 19
 - 3.5.1 Developing Architecture 19
 - 3.5.2 Developing Technology 19
 - 3.5.3 Operating System 19
 - 3.5.4 Web Server 19
 - 3.5.5 RDP (Remote Desktop Protocol) 19
 - 3.5.6 Windows Server 2003 Terminal Services 19
 - 3.5.7 Database Connectivity 20
 - 3.5.8 Developing Tool 20
 - 3.5.9 Application Security 21
 - 3.5.10 File Transfer 21
- 3.6 Summary 21

CHAPTER 4.....22

Computer-Based ID Validation for Efficient AMACS 22

- 4.1 Introduction 22
- 4.2 Selection of Person Authentication Methodology 22
- 4.3 Selection of Software Engineering Methodologies 23
 - 4.3.1 Software Process Model for the Proposed System 23
 - 4.3.2 System Analysis & Design Methodology 23
- 4.4 Unified Modeling Language (UML) 24
- 4.5 Entity Relationship Diagram(ER Diagram) 25
- 4.6 Select the Development Environment and Platform 26
 - 4.6.1 Operating System 26
 - 4.6.2 IIS Web Server 26
 - 4.6.3 Terminal Services 26
 - 4.6.4 Database Server 27
 - 4.6.5 Connectivity 27

4.6.6	Development Tools	27
4.6.7	Language	27
4.6.8	Developing Architecture	27
4.7	Project Scope.....	28
4.7.1	Limitation of the Scope	28
4.7	Summary	28
CHAPTER 5.....		29
Analysis and Design		29
5.1	Introduction	29
5.2	Analysis of the Existing System.....	29
5.2.1	Use Cases of Manual System	29
5.2.2	Use Case Description	30
5.2.3	Activity Diagram.....	30
5.2.4	Software Requirement Specification (SRS).....	30
5.2.5	Grammatical Analysis	32
5.3.1	Architecture Design for Proposed System	33
5.3.2	Overview of Process System Design.....	33
5.3.3	Control IN and OUT Details Separately	34
5.3.4	Use Case Analysis of Proposed System	35
5.3.5	Activity Diagrams for Proposed System	37
5.3.6	Sequence Diagram	38
5.3.7	Class Diagram	40
5.3.8	Check List	40
5.4	Database Design.....	40
5.4.1	ER-Diagram	40
5.4.2	Table Design	40
5.4.3	Stored Procedure Design.....	41
5.5	User Interfaces (UI) Design	41
5.5.1	Color Selection.....	45
5.5.2	Message Box	45
5.5.3	List of User Interface.....	45
5.6	Web Site Security Design	46
5.7	Use the Think Client	46
5.8	Summary	47
CHAPTER 6.....		48
Implementation		48
6.1	Introduction	48

6.2	Implementation General Process.....	48
6.3	System Integration	49
6.4	Magnetic Card Reader Configuration	49
6.5	Implementation Architecture.....	49
6.6	Interface Layer	50
6.6.1	Alert Message.....	52
6.6.2	Cascade Style Sheet	52
6.7	Business Logic Layer	53
6.7.1	Algorithms	53
6.7.2	Control Classes.....	54
6.7.3	Entity Classes	54
6.8	Database Layer.....	55
6.8.1	Table structure.....	55
6.8.2	Stored Procedures.....	56
6.8.3	Triggers	57
6.8.4	Database Handler Control Class.....	57
6.8.5	Database Backup Implementation.....	58
6.9	Form Base Authentication –Security Implementation	59
6.10	Value Pass between the Methods	60
6.11	Code Maintenance Guide.....	60
6.12	Summary	62

University of Moratuwa, Sri Lanka.
 Electronic Theses & Dissertations
www.lib.mrt.ac.lk

CHAPTER 7.....64

Testing and Evaluation.....	64	
7.1	Introduction	64
7.2	Test plan	64
7.2	Testing.....	64
7.3	Test Results	65
7.4	Summary of the Errors Found	66
7.5	Assessment.....	67
7.6	Deviation from Time Attendant System.....	68
7.7	Increase of Efficiency.....	68
7.8	The Used Technology Evolution.....	69
7.9	Check List	70
7.10	System Performance, Robustness and Security.....	70
7.11	Policemen Attention.....	71
7.12	User Training	71
7.13	How to Prevent Use the Duplicated ID Card.	72
7.14	Summary	72

CHAPTER 8.....73

Conclusions and Suggestions..... 73

- 8.1 Conclusions 73
- 8.2 Provide the Efficient Unauthorized Identification Mechanism. 73
- 8.3 Record the Airmen IN/OUT Time Automatically in Electronic Media. 73
- 8.4 Provide Online Parade State Facilities. 73
- 8.5 Provide the Internal Message Passing System 74
- 8.6 Features of Personal Tracking..... 74
- 8.7 Automate the Weapon Status Checking..... 74
- 8.8.1 Suggestions 74

APPENDIX.....78

Appendix -A Existing System Use Cases and Activity Diagram 79

Appendix –B Grammatical Analysis 83

Appendix –C Proposed System Use Case and Activity Diagrams..... 87

Appendix -D Proposed System Sequence Diagram..... 94

Appendix -E Database Design for Proposed System Database Management..... 99

Appendix –F Class Diagram..... 107

Appendix –G Check List 108

Appendix –H User interfaces..... 109

Appendix –I Feasibility study..... 119

Appendix –J Test Cases..... 124

Appendix –K Implementation Architecture Overview..... 129

Appendix –L User Manual 130

List of Abbreviations

Abbreviation	Description
SLAF	Sri Lanka Air Force
EOD	Explosive Ordnance Disposal
DETE	Director Electronics and Telecommunication Engineering
AFHQ	Air Force Headquarters
AWOL	Absent Without official leave
AMACS	Access Monitoring & Control System
CMDR	The Commander of SLAF
CO	Camp commanding Officer
OIC	section Officer In Charge
CPM	Chief Police Master
GD	General Duty
OOAD	Object Oriented Analysis & Design
OOA	Object Oriented Analysis
OOD	Object Oriented Design
SSADM	Structured System Analysis & Methodology
UML	Unified Modeling Language
OOSE	Object Oriented Software Engineering
OMT	Object Modeling Technique
RDP	Remote Desktop Protocol
LAN	Local Area Network
SQL	Structured Query Language
XML	Extensible Markup Language
OLE DB	Object Linking and Embedded Data Base
ODBC	Open Data Base Connection
HTTP	Hyper Text Transfer Protocol
SRS	Software Requirement Specification
MP	Police Man
HRMS	Human Resource Management System
ER	Entity Relationship
IIS	Internet Information Server
