Declaration

I declare that this dissertation does not incorporate, without acknowledgment, any material previously submitted for a Degree or a Diploma in any University and to the best of my knowledge and belief, it does not contain any material previously published or written by another person or myself except where due reference is made in the text. I also hereby give consent for my dissertation, if accepted, to be made available for photocopying and for interlibrary loans, and for the title and summary to be made available to outside organization.

Dedication

I was motivated to do this thesis my supervisor Dr. Gamini Wijayarathna and my friends. Without their guidance, advice, and commitment my effort will not become a successful one.

University of Moratuwa, Sri Lanka.

Acknowledgment

I owe a debt of gratitude all those who have helped me with this thesis.

First, I would like to pay special thanks my project supervisor Dr. Gamini Wijayarathna who game me lot of guidance, advice and encouragement to do this project. I should admire his ability of understanding persons and in truly way of giving scientist institution.

I gratefully acknowledge my colleague Mr. Suraj Kanchana for giving me lot of encouragement, supervision and advice to do this project. I'm also grateful to his family members who help in various ways and facilitate us to work together.

I take this opportunity to convey my heartfelt gratitude to Sri Lanka Standards Institution specially DG, DDG(BS), my sectional Assistant Director-Mr. Lilantha Karalliyadde, Mr. W Gunawardana for giving me freedom to do this software project.

University of Moratuwa, Sri Lanka.

I tender sincere thanks to my wife and little daughter who gave me lot of freedom by bearing up lot of difficulties faced trough out the course.

Dear friend Mr. Anuradha you did invaluable support to all who were supervised by Dr. Gamini Wijayarathna. I take this opportunity to convey my heartfelt gratitude to you also.

Last but not least, I expressed my thanks for the cooperation given by neighbours associated through out the project.

Abstract	iv
Table of Contents	v
List of Figures	ix
List of Tables	x
1 Introduction	**1**
1.1 Introduction to the Company	1
1.2 Background and motivation	2
1.2.1 Background	2
1.2.2 Motivation	3
1.3 Problem and weaknesses of the existing system	3
1.4 Aim and objectives	4
1.4.1 Aim	4
1.4.2 Objectives	4
1.5 Chapter Breakdown	5
1.6 Summery	6
2 Problem Domain	**7**
2.1 Introduction	7
2.2 Current System	7
2.2.1 Receiving Application	8
2.2.2 Processing the application	8
2.2.3 Issue 'SLS' marks	8
2.2.4 Arranging Audits	9
2.2.5 Recover the fee	9
2.3 Problems and weaknesses of the existing system in details	10
2.4 Comparison of proposed system verses some different systems available in the market	11
2.5 Summery	12

3 Technology Adopted 13

3.1 Introduction 13

3.2 Software Process Models 13

3.2.1 Waterfall Model 13

3.2.2 Evolutionary Development Model 16

3.2.3 Component Based Software Engineering 18

3.2.4 Comparison of Software Process Models 19

3.3 System Analysis and Design Methodology 19

3.3.1 Object Oriented Analysis & Design 19

3.3.2 Structured System Analysis and Design Methodology (SSADM) 20

3.3.3 Comparison of OOAD and SSADM 21

3.4 Unified Modeling Language (UML) 21

3.5 Development Environment 22

3.5.1 LAMP 22

3.5.2 WAMP 23

3.6 Summery 25

4 Approach 26

4.1 Introduction 26

4.2 Selected Software Process Model 26

4.3 Selected System Analysis and Design Methodology 26

4.4 Unified Modelling Language 27

4.5 Selected Development Environment 27

4.5.1 Front End Programming Languages Used 27

4.5.2 Database Management Systems (DBMS) 28

4.6 Scope of the Project 28

4.7 Summery 29

5 Analysis & Design 30

5.1 Introduction 30

5.2 System Analysis 30

5.2.1 Existing System Use Case Diagrams 31

University of Moratuwa, Sri Lanka.
Electronic Theses & Dissertations
www.lib.mrt.ac.lk

5.2.2 Existing System Activity Diagrams 33
5.2.3 Use Case Descriptions for the Existing System 34
5.2.4 Existing System Requirements 35
5.2.5 System Architectural Design 36
5.2.6 Software Requirements Specifications 38
5.2.6.1 Functional Requirements 38
5.2.6.2 Non-Functional Requirements 39
5.3 System Design 40
5.3.1 Class Diagram 45
5.3.2 Database Design 44
5.3.2.1 Relational Database Modeling 44
5.4 Summery 44

6 Implementation 45
6.1 Introduction 45
6.2 Hardware and software used 45
6.2.1 Software Installation and Configuration 45
6.2.1.1 Apache and PHP installation 45
6.2.1.2 MySQL 46
6.2.1.3 Microsoft Dream Weaver 8.0 46
6.2.1.4 Java Script Language 46
6.2.2 Hardware used 46
6.3 Testing of Database Connectivity 46
6.4 Implementation of Security Measures 47
6.4.1 Password Encryption 47
6.4.2 Sessions 48
6.4.3 Password Protection and System Login 48
6.4.4 System User Management 48
6.5 Implementation of the System 49
6.5.1 Sub Systems 49
6.6 Summery 49

7 Evaluation and Testing **50**

7.1 Introduction 50

7.2 Evaluation of the Proposed System 50

7.3 Software Testing 50

7.3.1 Testing methods 51

7.3.1.1 Black Box testing approach 51

7.3.1.2 White Box testing approach 51

7.3.2 Testing of Activity Management and Monitoring System 52

7.3.2.1 List of Test Cases 52

7.4.2 Test Plan 53

7.4.2.1 Test Cases 53

7.4.2.2 Test data & Results 54

7.5 Summery 56

8 Conclusion and Further Works **57**

8.1 Introduction 57

8.2 Conclusion 57

8.3 Limitations of the Solution & Future Work 58

University of Moratuwa, Sri Lanka.
